

TASK 3 – PLATFORMS

Part A – Coding Practice

The screenshot displays the HackerRank user interface. At the top, the navigation bar includes the HackerRank logo, links for 'Prepare', 'Certify', and 'Compete', a search bar, and user profile icons. The main profile section for user 'Snehal Dixit' (@snehaldixit237) shows a 'Complete your profile' banner with a 0% progress indicator. Below this, the 'Personal Information' section lists an email address and a location of India. The 'My Badges' section features a 'Solving' badge. The 'My Resume' and 'My Certifications' sections are also visible. A code editor window is open, showing a Python script. A white notification box in the center of the screen reads: 'Congrats Snehal! You've successfully solved your 5th code challenge. Keep it up!'. Below the notification, a green 'Congratulations' banner is displayed, along with a 'Next Challenge' button. The background of the interface is dark-themed.

```
30
31 ✓ if __name__ == '__main__':
32     fptr = open(os.environ['OUTPUT_PATH'], 'w')
33
34     n = int(input().strip())
35
36     arr = []
37
38     for _ in range(n):
39         arr.append(list(map(int, input().rstrip().split())))
40
```

Upload Code as File Test against custom input

You have earned 10.00 points
You are now 52 points away from the next badge

Congratulations
You solved this challenge. Would you like to challenge your friends?

Part B – Google Workspace Collaboration

Link to the Google Form <https://docs.google.com/forms/d/e/1FAIpQLSenTx05fueTR-G5EcayIRETIHwvo9dzryUbL16haR2bnqZY w/viewform?usp=dialog>

The image displays two screenshots of a Google Form titled "Digital Literacy Awareness Quiz for Batchmates". The form is in "Published" status and has tabs for "Questions", "Responses", and "Settings".

Top Screenshot:

- Question 1:** "Which of the following is the strongest indicator that a website is secure for entering sensitive data?"
 - ☐ A high-quality logo
 - ☐ URL starts with "https://" and has a padlock icon
 - ☐ The website appears first in search results
 - ☐ It has many advertisements
- Question 2:** "Explain briefly (in one to two sentences) what 'Phishing' is in the context of cybersecurity."
 - Short answer text
- Question 3:** "On a scale of 1 to 10, how confident are you in your ability to distinguish between reliable news sources and 'fake news' online?"
 - Scale: 1 (Not confident at all) to 10 (Extremely confident)

Bottom Screenshot:

- Question 4:** "Which of the following actions should you take immediately if you receive an unexpected email asking you to click a link and verify your bank account details?"
 - ☐ Click the link and fill out the form quickly to secure your account.
 - ☐ Reply to the email asking for confirmation of the request.
 - ☐ Forward the email to all your contacts as a warning.
 - ☐ Do not click the link; instead, independently contact the institution using a verified phone number or official email.
- Question 5:** "Rank the following data privacy practices from 1 (Most Important) to 5 (Least Important) for protecting your personal information online."

	1 (Most Important)	2	3	4	5 (Least Important)
Regularly updating software	☐	☐	☐	☐	☐
Using two-factor authentication	☐	☐	☐	☐	☐
Clearing browser cookies and cache	☐	☐	☐	☐	☐
Reading the privacy policy	☐	☐	☐	☐	☐
Only using Wi-Fi for sensitive transactions	☐	☐	☐	☐	☐

Summary Question Individual

Which of the following is the strongest indicator that a website is secure for entering sensitive data?

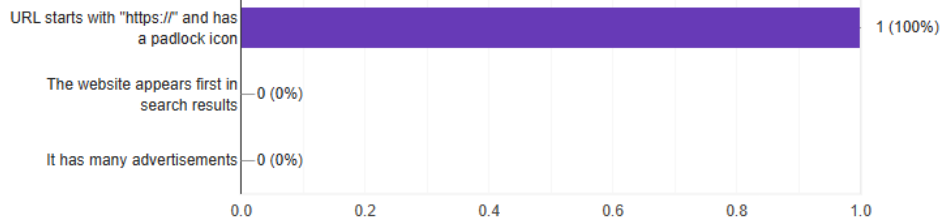

1 response

Explain briefly (in one to two sentences) what 'Phishing' is in the context of cybersecurity.

1 response

Gemini said Phishing is a cyberattack where scammers impersonate a legitimate organization or person through email, text, or phone calls to trick victims into revealing sensitive information like passwords or credit card numbers. It often relies on creating a sense of urgency or fear to bait the user into clicking a malicious link or downloading a dangerous attachment.
